

SHUBHAM KUMAR

Full Stack Developer

Phone: +91-7250727385 | Email: sk5989229@gmail.com | LinkedIn: linkedin.com/in/shubham-kumar | GitHub: github.com/ShubhamKumar-25
Location: Punjab, India

Summary

Full Stack Developer and B.Tech Information Technology undergraduate with hands-on experience in the MERN-adjacent stack (React.js, Node.js, Express.js, MySQL, MongoDB) and REST API integration. Skilled in building responsive, scalable, and user-friendly web applications, integrating third-party AI APIs, and writing clean, maintainable, and reusable code. Strong foundation in Data Structures and Algorithms (DSA) with 200+ problems solved on LeetCode and GeeksforGeeks. Quick learner, effective team collaborator, and passionate about full stack web development, software engineering, and problem solving.

Technical Skills

Programming Languages: C, C++, Java, JavaScript (ES6+)

Frontend Development: HTML5, CSS3, JavaScript, React.js, Responsive Web Design, Bootstrap

Backend Development: Node.js, Express.js, REST API Development, RESTful Web Services

Database Management: MySQL, SQL, MongoDB, Database Design

Tools and Platforms: Git, GitHub, Visual Studio Code, IntelliJ IDEA, Postman, Vercel

Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), API Integration, Agile Development, Debugging, Software Development Life Cycle (SDLC)

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

Experience

Web Development Trainee

June 2025 – July 2025

ThinkNext, On-site

Technologies: HTML, CSS, JavaScript, React.js

- Completed hands-on training in HTML, CSS, and JavaScript fundamentals, building a strong foundation in front-end web development.
- Designed and developed 5+ responsive web pages, improving layout, styling, and overall user interface (UI) consistency across devices.
- Implemented JavaScript-based interactivity, including dynamic forms, event handling, and user input validation.
- Built reusable React.js components using props and state management, reducing code duplication and improving maintainability.
- Strengthened coding, debugging, and problem-solving skills by completing practical development tasks and code reviews.

Projects

NexAI – AI Chat Assistant | *React.js, Node.js, Express.js, MySQL, Groq AI API* September 2025 – October 2025

- Developed a full stack, AI-powered conversational assistant using React.js and CSS, delivering a responsive and user-friendly chat interface.
- Integrated the Groq AI API via REST endpoints to enable real-time conversational responses and natural language interaction.
- Designed and built backend services with Node.js and Express.js to handle API requests, chat communication, and core application logic.
- Implemented MySQL database schema to store and retrieve chat history and user data efficiently.
- Optimized response handling and UI rendering, then deployed the application on Vercel for public, demo-ready access.

Resume Analyzer | *React.js, Node.js, Express.js, MySQL, Groq AI API, Axios* August 2025 – September 2025

- Built a full stack web application to analyze resumes against target job descriptions and provide actionable feedback.
- Integrated the Groq AI API to generate automated resume feedback and keyword-based analysis, reducing manual review effort.
- Designed a scoring algorithm to evaluate resume-to-job-description match, helping users quickly identify skill gaps.
- Used MySQL for structured data storage and Axios for efficient client-server API communication, improving usability from upload to results.

Achievements and Certifications

- Solved 200+ Data Structures and Algorithms (DSA) problems on LeetCode and GeeksforGeeks.
- Oracle Database Certified – validated skills in relational database concepts and SQL.
- Graphic Design Certification, awarded at a college-level technical event.

Education

Chandigarh Engineering College, Landran

CGPA: 7.6 / 10

B.Tech, Information Technology

Expected Graduation: 2027
